*Journal of Wind Engineering and Industrial Aerodynamics*, 44 (1992)
Elsevier

# Contents Volumes 41–44 (1992)

**Preliminary pages**
International Association for Wind Engineering
The Conference
ICWE 1991 Master Programme
Acknowledgements

**Special Papers**
C.S. Scruton Memorial Lecture
L.R. Wootton (Epsom, UK) ..... 3
Martin Jensen: An appreciation
A.G. Davenport (London, Ont., Canada) ..... 15
The increasing significance of windstorms and the IDNDR
G. Berz (Munich, Germany) ..... 23
Recollections of wind engineering at the National Physical Laboratory 1930–1945
N. Vincent (Steyning, W. Sussex, UK) ..... 27
Discussion39

**Plenary Sessions**
La soufflerie climatique "Jules Verne"
J. Gandemer (Nantes, Cedex, France) ..... 43
Wind conditions in hurricane Hugo by measurement, inference, and experience
P.R. Sparks (Clemson, SC, USA), G.T. Reid, W.D. Reid, S. Welsh and N. Welsh (Awendaw, SC, USA) ..... 55
Full scale measurements of wind velocity in two urban areas using an ultrasonic anemometer
N. Kato (Kawasaki, Japan), T. Ohkuma (Yokohama, Japan), J.R. Kim (Seoul, South Korea), H. Marukawa (Yokohama, Japan) and Y. Niihori (Kawasaki, Japan) ..... 67
Lift on an oscillating cylinder in smooth and turbulent flow
H.M. Blackburn and W.H. Melbourne (Clayton, Australia) ..... 79
Discussion of Plenary Session-1
J.E. Cermak and A.G. Davenport (chairmen) ..... 91

Wind engineering beyond the boundary layer wind tunnel
G.R. Walker (North Ryde, NSW, Australia) ..... 93
Accelerations and comfort criteria for buildings undergoing complex motions
W.H. Melbourne and T.R. Palmer (Clayton, Vic., Australia) ..... 105
Vortex induced vibration of tall buildings
H. Kawai (Hatoyama, Japan) ..... 117
Statistical descriptions of fluctuating pressures: Field and laboratory investigations
A. Steckley (Guelph, Ont., Canada) and W.A. Dalgliesh (Ottawa, Ont., Canada) ..... 129

0167-6105/92/$05.00 © 1992 Elsevier Science Publishers B.V. All rights reserved.

Discussion of Plenary Session-2
H. Ishizaki and H. Auld (chairmen) ..... 141

Active control of flutter of a suspension bridge
H. Kobayashi (Kyoto, Japan) and H. Nagaoka (Osaka, Japan) ..... 143
Determination of flutter derivatives for the Great Belt Bridge
N.K. Poulsen, A. Damsgaard and T.A. Reinhold (Lyngby, Denmark) ..... 153
Suspension bridge parameter identification in full scale test
G. Diana, F. Cheli, A. Zasso, A. Collina (Milano, Italy) and J. Brownjohn (Bristol, UK) ..... 165
Wind-induced response of hemispherical air-supported structures
M. Kassem and M. Novak (London, Ont., Canada) ..... 177
Discussion of Plenary Session-3
M. Ito and R.H. Scanlan (chairmen) ..... 179

Roof corner pressures measured in the field on a low building
K.C. Mehta, M.L. Levitan, R.E. Iverson and J.R. McDonald (Lubbock, TX, USA) ..... 181
Internal pressure dynamics with a dominant opening
B.J. Vickery (London, Ont., Canada) and C. Bloxham (Townsville, Qld, Australia) ..... 193
On the suppression of aerodynamic instabilities through the moving surface boundary-layer control
Y. Kubo (Tobata Kitakyushu, Japan), V.J. Modi (Vancouver, BC, Canada), H. Yasuda and K. Kato (Tobata Kitakyushu, Japan) ..... 205
Concentration and mass flux of particles in aeolian suspension near tailings disposal sites or similar sources
R.J. Kind (Ottawa, Ont., Canada) ..... 217
Discussion of Plenary Session-4
N.J. Cook and H.J. Gerhardt (chairmen) ..... 227

The measured and predicted response of a 300 m concrete chimney
J.L. Waldeck (Pretoria, South Africa) ..... 229
Measurements of wind induced vibrations of a fullscale steel chimney
Th. Galemann and H. Ruscheweyh (Aachen, Germany) ..... 241
Numerical study of aerodynamic instability of oscillating rectangular cylinders
T. Tamura (Tokyo, Japan) and K. Kuwahara (Kanagawa, Japan) ..... 253
Determination of the pedestrian wind environment in the City of Ottawa using wind tunnel and field measurements
C.D. Williams (St. John's, Nfld, Canada) and R.L. Wardlaw (Ottawa, Ont., Canada) ... 255
Optimised peak load distributions
J.D. Holmes (Highett, Vic., Australia) ..... 267
Discussion of Plenary Session-5
T.A. Wyatt and T.F. Sun (chairmen) ..... 277

**Wind**
Turbulent structure of wind flow over ice-covered sea surface
G. Naito, Y. Sasaki (Yokosuka, Japan) and H. Nakamura (Tsukuba, Japan) ..... 283

Structure spatiale de la turbulence au cours de vents forts sur differents sites
C. Sacré and D. Delaunay (Nantes, Cedex, France) ..... 295
Wind structure over postglacial lava surface
J.T. Snæbjörnsson and R. Sigbjörnsson (Reykjavík, Iceland) ..... 305
Structure of the atmospheric boundary layer below 25 m and implications to wind loading on low-rise buildings
R.P. Hoxey (Bedford, UK) and P.J. Richards (Auckland, New Zealand) ..... 317
Wind characteristics in the surface layer over heterogeneous terrain
H.W. Tieleman (Blacksburg, VA, USA) ..... 329
Assessment for local terrain wind effects on structures
F. Nagao, H. Utsunomiya (Tokushima, Japan), N. Shiraishi and M. Matsumoto (Kyoto, Japan) ..... 341
Discussion of Wind-1
A.J. Bowen and J. Bietry (chairmen) ..... 353

Updating the Davenport roughness classification
J. Wieringa (De Bilt, The Netherlands) ..... 357
A full-scale study of the wind climate of an entire city
A.P. Jeary (Hong Kong) ..... 369
The measurement and interpretation of peak-gust wind-speeds over an isolated hill
A.J. Bowen and H. Clucas (Christchurch, New Zealand) ..... 381
Wind measurements on Messina Straits
M. Gasparetto and M. Bocciolone (Milano, Italy) ..... 393
Estimation of local strong wind around small peninsula-like terrain
H. Utsunomiya, F. Nagao (Tokushima, Japan) and Y. Saito (Kagawa, Japan) ..... 405
Discussion of Wind-2
A.N.L. Chiu and D. Surry (chairmen) ..... 415

Orographic effects on strong winds in Poland
J.A. Zurański (Warszawa, Poland) ..... 417
Characteristics of gusty winds simulated by an A.R.M.A. model
J. Maeda and M. Makino (Fukuoka, Japan) ..... 427
Model study of the development of boundary layers above urban areas
W. Theurer, W. Baechlin and E.J. Plate (Karlsruhe, Germany) ..... 437
Aerodynamic roughness length: Correlation with roughness elements
C. Fang and B.L. Sill (Clemson, SC, USA) ..... 449
The turbulence structure behind the multiple windbreaks across-wind
B.-S. Shiau (Keelung, Taiwan, ROC) ..... 461
Discussion of Wind-3
J. Wieringa and H. Utsunomiya (chairmen) ..... 469

Application of the wind atlas method to extreme wind speed data
J. Abild (Virum, Denmark), N.G. Mortensen and L. Landberg (Roskilde, Denmark) .... 473
Statistical analysis of high return period wind speeds
S. Lagomarsino, G. Piccardo (Genoa, Italy) and G. Solari (Cosenza, Italy) ..... 485
An æollian geographical informative system for civil engineering
V. Gusella, P. Spinelli and G. Bartoli (Florence, Italy) ..... 497

Discussion of Wind-4
J.A.B. Wills and K. McTaggart (chairmen) ..... 507

Recent approaches to extreme value estimation with application to wind speeds. Part I: The Pickands method
J.A. Lechner, S.D. Leigh (Gaithersburg, MD, USA) and E. Simiu (Baltimore, MD, USA) ..... 509
The climate of extreme winds at the Great Belt, Denmark
J. Abild, E.Y. Andersen (Virum, Denmark) and D. Rosbjerg (Lyngby, Denmark) ..... 521
Improved extreme wind prediction for the United States
J.A. Peterka (Fort Collins, CO, USA) ..... 533
A knowledge-based extreme wind simulation technique
E. Cheng and A. Chiu (Honolulu, HI, USA) ..... 543
Research on thunderstorm wind design parameters
L.A. Twisdale and P.J. Vickery (Raleigh, NC, USA) ..... 545
Discussion of Wind-5
C. Williams and J. Maeda (chairmen) ..... 557

**Bluff Bodies**
Flows past two circular cylinders of different diameters
N.W.M. Ko and P.T.Y. Wong (Hong Kong) ..... 563
Aerodynamic response characteristics of rectangular cylinders in tandem arrangement
T. Takeuchi (Kanagawa, Japan) and M. Matsumoto (Kyoto, Japan) ..... 565
Fluctuating pressure on two circular cylinders at high Reynolds numbers
T.F. Sun, Z.F. Gu (Beijing, China), D.X. He and L.L. Zhang (Sichuan, China) ..... 577
Interference between two circular cylinders in tandem in turbulent flow
H. Zhang and W.H. Melbourne (Monash, Australia) ..... 589
Direct measurement of the aerodynamic admittance of two-dimensional rectangular cylinders in smooth and turbulent flows
R. Sankaran and E.D. Jancauskas (Townsville, Qld, Australia) ..... 601
Evaluation of aerodynamic admittance for buffeting analysis
M. Kawatani and H. Kim (Osaka, Japan) ..... 613
Discussion of Bluff Bodies-1
D. Reed and A. Laneville (chairmen) ..... 625

Les oscillations induites par l'émission tourbillonnaire dans le cas d'un long cylindre circulaire
D. Brika, A. Laneville and P. Vittecoq (Sherbrooke, Que., Canada) ..... 627
Mean and fluctuating forces on a circular cylinder in cross-flow near a plane surface
G. Buresti and A. Lanciotti (Pisa, Italy) ..... 639
Sur le flottement transversal des coques cylindriques circulaires
A. Mazouzi, A. Laneville and P. Vittecoq (Sherbrooke, Que. 651
Further observations of the windward vortex on U-section prisms
J.-X. Lin (London, Ont., Canada), B. Wiren and L. Claesson (Gavle, Sweden) ..... 663
The galloping instability of ice coated poles
F.H. Durgin, D.A. Palmer and R.W. White (Sudbury, MA, USA) ..... 675

Torsional flutter mechanism of 2-D H-shaped cylinders and effect of flow turbulence
M. Matsumoto, H. Shirato (Kyoto, Japan) and S. Hirai (Nagasaki, Japan) ..... 687
Discussion of Bluff Bodies-2
H.-J. Niemann and M. Matsumoto (chairmen) ..... 699

Effects of turbulence on mean force and moment coefficients
R.E. Akins (Lexington, VA, USA) ..... 701
Effect of momentum injection on the aerodynamics of several bluff bodies
V.J. Modi, B. Ying (Vancouver, BC, Canada) and T. Yokomizo (Yokohama, Japan) ..... 713
Multiple aerodynamic pressure admittance: Concept and related experiments
N. Hölscher and H.-J. Niemann (Bochum, Germany) ..... 715
Unsteady aerodynamic forces and wakes of rectangular prisms with oscillating flaps at leading edges
T. Mizoto (Fukuoka, Japan) and A. Okajima (Kanazawa, Japan) ..... 727
Wind loads on square cylinder in homogeneous turbulent flows
C.M. Cheng, P.C. Lu and R.H. Chen (Taipei Hsien, Taiwan, ROC) ..... 739
Discussion of Bluff Bodies-3
W.H. Melbourne and J. Kanda (chairmen) ..... 751

Interference-induced oscillations of two unequal cylinders
E.B. Medeiros and M.M. Zdravkovich (Salford, UK) ..... 753
Vortex shedding from circular cylinders: Experimental data and a new model
I. Goswami, R.H. Scanlan and N.P. Jones (Baltimore, MD, USA) ..... 763
Effects of turbulence characteristics on vortex-induced oscillation of rectangular cylinders
H. Kobayashi (Kyoto, Japan), M. Kawatani and H. Kim (Osaka, Japan) ..... 775
Correlating dynamic wind force components on 3-D cylinders
J. Kanda (Tokyo, Japan) and H. Choi (Seoul, South Korea) ..... 785
Spanwise correlations of pressure on a rigid square section cylinder
I. McLean and I. Gartshore (Vancouver, BC, Canada) ..... 797
The coherence of cross-wind velocity and pressure on two-dimensional rectangular cylinders in turbulent flows
E.D. Jancauskas and R. Sankaran (Townsville, Qld, Australia) ..... 809
Discussion of Bluff Bodies-4
B.G. Newman and H. Kawai (chairmen) ..... 811

Probability distribution of forces and pressures on a square cylinder
J.L.D. Ribeiro and J. Blessmann (Porto Alegre, Brazil) ..... 813
Response of smooth body, trapezoidal wire overhead (compact) conductors to wind loading
M. Tabatabai, S.G. Krishnasamy, J. Meale (Toronto, Ont., Canada) and K.R. Cooper (Ottawa, Ont., Canada) ..... 825
Field determination of conductor drag coefficients
L. Shan, L.M. Jenke and D.D. Cannon, Jr. (Haslet, TX, USA) ..... 835
Wind tunnel errors in drag measurements of power conductors
N.G. Ball (Ottawa, Ont., Canada), C.B. Rawlins (Massena, NY, USA) and J.D. Renowden (Juno Beach, FL, USA) ..... 847

Aerodynamic interference in tall rectangular buildings
M. Yahyai, K. Kumar, P. Krishna and P.K. Pande (Roorkee, India) ..... 859
Interference effects of wind on the responses of tall buildings
X. Zhang (Shanghai, China) ..... 867
Discussion of Bluff Bodies-5
M.M. Zdravkovich and K. Takeda (chairmen) ..... 869

**Wind Tunnel Technique**

Blockage tolerance of a boundary-layer wind tunnel
G.V. Parkinson (Vancouver, BC, Canada) and N.J. Cook (Watford, UK) ..... 873
Construction of boundary layer wind tunnel for long-span bridges
T. Miyata, H. Yamada (Yokohama, Japan), K. Yokoyama, T. Kanazaki (Tsukuba, Japan), T. Iijima and M. Tatsumi (Tokyo, Japan) ..... 885
Wind tunnel blockage effects on drag coefficient and wind-induced vibration
K. Takeda and M. Kato (Kanagawa, Japan) ..... 897
Reference static pressure measurements in wind tunnels
S. Dalley ( Guildford, UK) and G. Richardson (Bedfordshire, UK) ..... 909
Discussion of Wind Tunnel Technique-1
I.S. Gartshore and H. Kobayashi (chairmen) ..... 921

Problems associated with flow modelling procedures for low-rise structures
H.W. Tieleman (Blacksburg, VA, USA) ..... 923
Physical modelling of the atmospheric surface layer
J.E. Cermak and L.S. Cochran (Fort Collins, CO, USA) ..... 935
Gust modelling for wind loading
F.J. Verheij, J.W. Cleijne and J.A. Leene (Apeldoorn, The Netherlands) ..... 947
Active generation of wind gust in a two-dimensional wind tunnel
H. Kobayashi and A. Hatanaka (Kyoto, Japan) ..... 959
Discussion of Wind Tunnel Technique-2
G.V. Parkinson and P. Krishna (chairmen) ..... 971

Nummerical and experimental investigation of a pressure measuring system with a restrictor
H. Sockel and F. Ottitsch (Vienna, Austria) ..... 975
Fluctuating wind pressure measured with tubing system
M. Yoshida, K. Kondo and M. Suzuki (Tokyo, Japan) ..... 987
Applications of digital image processing in wind engineering
G. Wu, K. Higuchi and R.N. Meroney (Fort Collins, CO, USA) ..... 999
Validation of the aerodynamic model method
D.W. Boggs (Fort Collins, CO, USA) ..... 1011
The use of integrated pressures to determine overall wind-induced response
A. Steckley, M. Accardo, S.L. Gamble and P.A. Irwin (Guelph, Ont., Canada) ..... 1023
Discussion of Wind Tunnel Technique-3
G.R. Walker and H. Yamada (chairmen) ..... 1035

**Tall Buildings**

Wind resistant design of a high-rise building with stepped height
T. Kobori, T. Tsujimoto and K. Kondo (Tokyo, Japan) ..... 1039
Neighbouring wind effects on two tall buildings
J. Blessmann (Porto Alegre, Brazil) ..... 1041
Performance of a tall building under wind action
N. Isyumov, A.A. Fediw (London, Ont., Canada), J. Colaco and P.V. Banavalkar (Houston, TX, USA) ..... 1053
Wind tunnel experiments on the vibrations of flexible models of a tall building
H. Ishizaki and H. Nishimura (Kyoto, Japan) ..... 1065
Interference mechanism for enhanced wind forces on neighboring tall buildings
Y. Taniike (Kyoto, Japan) ..... 1073
Full-scale measurements to determine the response of Hume Point to wind loading
J.D. Littler and B.R. Ellis (Watford, UK) ..... 1085
Discussion of Tall Building-1
J. Peterka and A. Kawaguchi (chairmen) ..... 1097

Dynamic response of high-rise buildings to stochastic wind loads
A. Kareem (Notre Dame, IN, USA) ..... 1101
Full-scale results of wind-induced motion in multi-story buildings
J.T. Snæbjörnsson (Reykjavík, Iceland) and D.A. Reed (Seattle, WA, USA) ..... 1113
Torsional moments of tall buildings
J.C.K. Cheung and W.H. Melbourne (Clayton, Vic., Australia) ..... 1125
Wind-induced lateral–torsional motion of a tall building
J. Katagiri, O. Nakamura (Tokyo, Japan), T. Ohkuma, H. Marukawa (Kanagawa, Japan), T. Tsujimoto and K. Kondo (Tokyo, Japan) ..... 1127
Across-wind and torsional acceleration of prismatic high rise buildings
H. Marukawa, T. Ohkuma (Yokohama, Japan) and Y. Momomura (Tokyo, Japan) ..... 1139
Wind tunnel investigation upon the coherence of pressure measurments taken around a tall building in open site terrain
G. Breeze (Bristol, UK) ..... 1151
Discussion of Tall Building-2
T. Ohkuma and M. Novak (chairmen) ..... 1163

**Bridges**

Aerodynamic instability of prestressed concrete cable-stayed bridge with noise barrier
A. Honda (Nagasaki, Japan), M. Ito (Saitama, Japan) and H. Kimura (Shizuoka, Japan) ..... 1169
Comportement dynamique d'un pont à haubans dans une turbulence de sillage
G. Grillaud (Nantes, France), A. Chauvin (Paris, France) and J. Bietry (Nantes, France) ..... 1181
Wind effects on long span bridges: Consistency of wind tunnel results
G.L. Larose, A.G. Davenport and J.P.C. King (London, Ont., Canada) ..... 1191
Aerodynamic stability of four medium span bridges in Kyushu district
T. Yoshimura (Fukuoka, Japan) ..... 1203
Wind buffeting of a rectangular box girder bridge
E. Hjorth-Hansen (Trondheim, Norway), A. Jakobsen (Verdal, Norway) and E. Strømmen (Trondheim, Norway) ..... 1215

Aerodynamic stability of a cable-stayed bridge with girder, tower and cables
K. Ogawa, H. Shimodoi (Hyogo, Japan) and H.1227
Discussion of Bridges-1
N. Shiraishi and J.P.C. King (chairmen) ..... 1239

System identification for estimation of flutter derivatives
P.P. Sarkar, N.P. Jones and R.H. Scanlan (Baltimore, MD, USA) ..... 1243
Measurement of aerodynamic coefficients by system identification methods
H. Yamada, T. Miyata and H. Ichikawa (Yokohama, Japan) ..... 1255
Probabilistic flutter criteria for long span bridges
P. Ostenfeld-Rosenthal (Virum, Denmark), H.O. Madsen (Copenhagen, Denmark) and A. Larsen (Virum, Denmark) ..... 1265
Investigation of analytical modeling for long-span bridge flutter
A. Namini (Coral Gables, FL, USA) ..... 1277
Coupled mode flutter analysis using flutter derivatives
H. Tanaka, N. Yamamura (Osaka, Japan) and M. Tatsumi (Kobe, Japan) ..... 1279
Flutter pattern of cable-stayed bridge and a numerical method for flutter analysis
H. Xiang, Z. Zhao and L. Zhu (Shanghai, China) ..... 1291
Discussion of Bridges-2
T. Miyata and A. Larsen (chairmen) ..... 1293

Mechanism of aerodynamic vibrations of shallow bridge girder sections
Y. Kubo (Tobata Kitakyushu, Japan), K. Hirata (Hiratsuka, Japan) and K. Mikawa (Osaka, Japan) ..... 1297
Bridge buffeting due to wind with yaw angles
K. Kimura and H. Tanaka (Ottawa, Ont., Canada) ..... 1309
Nonlinear effects in sectional model aeroelastic parameters identification
M. Falco, A. Curami and A. Zasso (Milano, Italy) ..... 1321
Wind tunnel experiments using 3D models and response prediction for a long-span suspension bridge
Y. Fujino (Tokyo, Japan), M. Iwamota (Nagoya, Japan), M. Ito (Saitama, Japan) and Y. Hikami (Kanagawa, Japan) ..... 1333
Discussion of Bridges-3
E. Hjorth-Hansen and M. Yasuda (chairmen) ..... 1345

Stochastic response of bridges in turbulent wind
C.G. Bucher and F.J. Wall (Innsbruck, Austria) ..... 1347
Ambient vibration tests on long span suspension bridges
J.D. Littler (Watford, UK) ..... 1359
Circumstances of wind-resistant design examinations for very long suspension bridge
T. Miyata, H. Matsumoto and M. Yasuda (Yokohama, Japan) ..... 1371
Optimization of TMD for suppressing buffeting response of long-span bridges
M. Gu and H. Xiang (Shanghai, China) ..... 1383
Wind measurements on the Humber Bridge and numerical simulations
M. Bocciolone, F. Cheli, A. Curami and A. Zasso (Milano, Italy) ..... 1393
Wind engineering aspects of the East Bridge Tender Project
A. Larsen (Virum, Denmark) and N.J. Gimsing (Copenhagen, Denmark) ..... 1405

Discussion of Bridges-4
R.L. Wardlaw and G. Diana (chairmen) ..... 1417

**Roofs**

Wind load on grandstands around a full perimeter of a stadium
S.O. Hansen, P. Højholt (Herlev, Denmark) and K. Nielsen (Nivå, Denmark) ..... 1423
Wind response of a large tensile structure: The new roof of the Olympic Stadium in Rome
C. Borri (Florence, Italy), M. Majowiecki (Casalecchio Di Reno, Italy) and P. Spinelli (Florence, Italy) ..... 1435
Wind induced response of a cable supported stadium roof
B.J. Vickery (London, Ont., Canada) and M. Majowiecki (Casalecchio Di Reno, Italy) ..... 1447
Aeroelastic model study of suspended cable roof
S. Kawakita, B. Bienkiewicz and J.E.1459
Aerodynamic instability of suspended roof models
A. Miyake, T. Yoshimura and M. Makino (Fukuoka, Japan) ..... 1471
Wind tunnel tests on a large astronomical telescope
C. Alexandrou, J.-A. Hertig (Lausanne, Switzerland) and L. Zago (München, Germany) ..... 1483
Discussion of Roofs-1
P. Irwin and S. Kawamura (chairmen) ..... 1495

Aeroelastic modelling of air-supported roofs
T. Matsumoto (Ishikawaken, Japan) ..... 1497
Experimental study of wind pressure and wind force characteristics on dome shaped openable roofs
T. Tsugawa, T. Hongo and M. Suzuki (Tokyo, Japan) ..... 1509
Characteristics of wind pressure acting on spatial large dome
S. Kawamura, T. Kiuchi (Osaka, Japan) and T. Mochizuki (Tokyo, Japan) ..... 1511
Wind safety of single-ply roofs under time varying wind load
H.J. Gerhardt and C. Kramer (Aachen, Germany) ..... 1513
Dynamic response of single-ply membrane roofing systems
N.J. Cook (Watford, UK) ..... 1525
Finite area element snow loading prediction: Applications and advancements
S.L. Gamble, W.W. Kochanski and P.A. Irwin (Guelph, Ont., Canada) ..... 1537
Discussion of Roofs-2
K. Fujii and G. Grillaud (chairmen) ..... 1549

**Low Buildings**

The Aylesbury comparative experiment: A final report
B.L. Sill (Clemson, SC, USA), N.J. Cook (Watford, UK) and C. Fang (Clemson, SC, USA) ..... 1553
Texas Tech field experiments for wind loads part 1: Building and pressure measuring system
M.L. Levitan and K.C. Mehta (Lubbock, TX, USA) ..... 1565
Texas Tech field experiments for wind loads part II: Meteorological instrumentation and

terrain parameters
M.L. Levitan and K.C. Mehta (Lubbock, TX, USA) ..... 1577
Full- and model-scale cladding pressures on the Texas Tech University experimental building
L.S. Cochran and J.E. Cermak (Fort Collins, CO, USA) ..... 1589
Comparison of wind tunnel and full-scale pressure measurement tests on the Texas Tech building
H. Okada (Ibaraki, Japan) and Y.-C. Ha (Aichi, Japan) ..... 1601
Wind tunnel simulation of the Texas Tech building
D. Surry (London, Ont., Canada) ..... 1613
Discussion of Low Building-1
K.C. Mehta and A.P. Robertson (chairmen) ..... 1615

Computation of pressures on Texas Tech building
R.P. Selvam (Fayetteville, AR, USA) ..... 1619
Computation of wind pressures on low-rise structures
D.A. Paterson (North Ryde, NSW, Australia) and J.D. Holmes (Highett, Vic., Australia) ..... 1629
Computational and wind tunnel modelling of mean wind loads on the Silsoe structures building
P.J. Richards (Auckland, New Zealand) and R.P. Hoxey (Bedford, UK) ..... 1641
The Silsoe building: A comparison of pressure coefficients and spectra at model and full-scale
G.M. Richardson (Bedford, UK) and D. Surry (London, Ont., Canada) ..... 1653
The effects of eaves geometry, model scale and approach flow conditions on portal frame building wind loads
E. Savory, S. Dalley and N. Toy (Guildford, UK) ..... 1665
The wind-induced response of a full-scale portal framed building
A.P. Robertson (Bedford, UK) ..... 1677
Discussion of Low Buildings-2
H.W. Tieleman and J.L. Waldeck (chairmen) ..... 1689

Jan Smuts experiment: Details of full-scale experiment
R.V. Milford, J.L. Waldeck and A.M. Goliger (Pretoria, South Africa) ..... 1693
Jan Smuts experiment: Comparison of full-scale and wind-tunnel results
R.V. Milford, A.M. Goliger and J.L. Waldeck (Pretoria, South Africa) ..... 1705
The improved performance of hip roofs in extreme winds: A case study
D. Meecham (Townsville, Qld, Australia) ..... 1717
Codification of wind pressure coefficients for sawtooth roofs
T. Stathopoulos and P. Saathoff (Montreal, Que., Canada) ..... 1727
Peak wind loads under delta wing vortices on canopy roofs
J.D. Ginger and C.W. Letchford (Townsville, Qld, Australia) ..... 1739
Discussion of Low Buildings-3
R.P. Hoxey and J. Katsura (chairmen) ..... 1751

The L.R.C. (load–response correlation) method: A general method of estimating

unfavourable wind load distributions for linear and non-linear structural behaviour
M. Kasperski and H.-J. Niemann (Bochum, Germany) ..... 1753
Effect of building geometry on roof windloading
H.J. Gerhardt and C. Kramer (Aachen, Germany) ..... 1765
Pressure fluctuations on flat roofs with parapets
A. Kareem (Notre Dame, IN, USA) and P.C. Lu (Taipei Hsien, Taiwan, ROC) ..... 1775
Low building wind load variability with application to codes
T.C.E. Ho, D. Surry and A.G. Davenport (London, Ont., Canada) ..... 1787
Wind tunnel tests of wind pressure on regularly aligned buildings
J. Tsutsumi, T. Katayama and M. Nishida (Fukuoka, Japan) ..... 1799
Wind loading of sheltered semicylindrical structures
B. Tahouri and N. Toy (Guildford, UK) ..... 1811
Discussion of Low Building-4
P. Sparks and G. Richardson (chairmen) ..... 1813

Wind-tunnel study of wind loading on loose-laid roofing systems
B. Bienkiewicz and Y. Sun (Fort Collins, CO, USA) ..... 1817
Investigation of the accuracy of the pneumatic averaging technique
H. Sockel and I. Krönke (Vienna, Austria) ..... 1829
Design wind loads for beams supporting flat roofs
Y. Tamura (Kanagawa, Japan), K. Fujii and H. Ueda (Tokyo, Japan) ..... 1841
A gust response of surface pressure field on a low-rise building model
J. Katsura (Kyoto, Japan) ..... 1853
Correlation structure of wind pressure buffeting on cuboidal buildings and corresponding effective area wind loads
J. Wacker and E.J. Plate (Karlsruhe, Germany) ..... 1865
Discussion of Low Buildings-5
J. Holmes and S.O. Hansen (chairmen) ..... 1877

**Vibrations and Dampers**
Control of wind-induced vibrations using an impact mass damper
K. Ogawa, Y. Sakai (Hyogo, Japan) and F. Sakai (Tokyo, Japan) ..... 1881
Modelling of tuned liquid damper (TLD)
L.M. Sun, Y. Fujino, B.M. Pacheco and P. Chaiseri (Tokyo, Japan) ..... 1883
Suppression of wind-induced vibration of a tall building using tuned liquid damper
T. Wakahara, T. Ohyama and K. Fujii (Tokyo, Japan) ..... 1895
Suppression of wind-induced vibration by dynamic dampers in tower-like structures
T. Ueda, R. Nakagaki and K. Koshida (Osaka, Japan) ..... 1907
Practical application of nutation damper for suppressing wind-induced vibrations of airport towers
Y. Tamura (Kanagawa, Japan), R. Kousaka (Tokyo, Japan) and V.J. Modi (Vancouver, BC, Canada) ..... 1919
Discussion of Vibrations and Dampers-1
H. Ruscheweyh and S.G. Krishnasamy (chairmen) ..... 1931

Tuned active dampers installed in the Minato Mirai (MM) 21 landmark tower in

Yokohama
S. Yamazaki, N. Nagata (Tokyo, Japan) and H. Abiru (Hiroshima, Japan) ..... 1937
Time history response of a tall building with a tuned mass damper under wind force
A. Kawaguchi, A. Teramura and Y. Omote (Tokyo, Japan) ..... 1949
Analytical estimation of structural damping in cable structures
H. Yamaguchi and L. Jayawardena (Bangkok, Thailand) ..... 1961
Aerodynamic damping effects of tall building for a vortex induced vibration
H. Hayashida, Y. Mataki and Y. Iwasa (Tokyo, Japan) ..... 1973
Active control of wind excited buildings: A frequency domain based design approach
J. Suhardjo, B.F. Spencer, Jr. and A. Kareem (Notre Dame, IN, USA) ..... 1985
Torsion response and vibration suppression of wind-excited buildings
Y.L. Xu, K.C.S. Kwok and B. Samali (Sydney, NSW, Australia) ..... 1997
Discussion of Vibrations and Dampers-2
V.J. Modi and A. Kawaguchi (chairmen) ..... 2009

Rain–wind induced vibration of cables of cable-stayed bridges
M. Matsumoto, N. Shiraishi and H. Shirato (Kyoto, Japan) ..... 2011
Simulation of the turbulence influence on galloping vibrations
H. Lindner (Hannover, Germany) ..... 2023
Wind-induced vibration of transmission line system
Y. Momomura (Tokyo, Japan), H. Marukawa and T. Ohkuma (Yokohama, Japan) ..... 2035
Interference galloping-investigations concerning the phase lag of the flow switching
H. Ruscheweyh and B. Dielen (Aachen, Germany) ..... 2047
Wind-induced response of soil–structure–damper systems
Y.L. Xu and K.C.S. Kwok (Sydney, NSW, Australia) ..... 2057
Discussion of Vibrations and Dampers-3
G.H. Hirsch and Y. Fujino (chairmen) ..... 2069

**Towers and Chimneys**
Experimental investigation of natural wind loading on a lettice hoist tower
J.F. Dickie and S.M. Thurlow (Manchester, UK) ..... 2075
Wind load and response of braodcasting antennas: Three years of research work in cooperation with RAI
G. Augusti (Rome, Italy), G. Bartoli, C. Borri, V. Gusella and P. Spinelli (Florence, Italy) ..... 2077
A 60 years old, 100 m high steel tower: Limit states under wind actions
G. Ballio (Milan, Italy), F. Maberini (Genoa, Italy) and G. Solari (Cosenza, Italy) ..... 2089
Wind-induced vibration of a large broadcasting tower
J.D. Holmes, B.L. Schafer and R.W. Banks (Highett, Vic., Australia) ..... 2101
Limiting the dynamic loads on tall towers
A.S. Richardson (Lexington, MA, USA) ..... 2111
Recent advances in control of wind-induced vibrations of guyed masts
G. Hirsch (Aachen, Germany) ..... 2113
Discussion of Towers and Chimneys-1
H. Sockel and A.P. Jeary (chairmen) ..... 2125

Guyed masts under wind load
U. Peil and H. Nölle (Karlsruhe, Germany) ..... 2129

Acrosswind response of reinforced concrete chimneys
C.-M. Cheng (Taiwan, ROC) and A. Kareem (Notre Dame, IN, USA) ..... 2141
Dynamic gust response of inclined towers
T.A. Wyatt (London, UK) ..... 2153
Full scale measurements of wind force acting on a 200 m concrete chimney, and the chimney's response
S. Sanada, M. Suzuki and H. Matsumoto (Tokyo, Japan) ..... 2165
Full scale measurement on a triangular tower-supported stack with two flues
S. Kawamura, T. Kiuchi and T. Taniguchi (Osaka, Japan) ..... 2177
Nonlinear dynamic analysis of cooling towers under stochastic wind loading
G. Bartoli, C. Borri (Florence, Italy) and W. Zahlten (Bochum, Germany) ..... 2187
Discussion of Towers and Chimneys-2
H. van Koten and G. Solari (chairmen) ..... 2199

Method for prediction of cross-wind response of steel chimneys with spoilers
M. Gaczek (Poznan, Poland) and J. Kawecki (Kraków, Poland) ..... 2203
Observation results of cross-wind response of towers and steel chimneys
R. Ciesielski (Kraków, Poland), M. Gaczek (Poznan, Poland) and J. Kawecki (Kraków, Poland) ..... 2205
Full-scale measurement and wind-tunnel testing of wind loading on two neighboring cooling towers
T.F. Sun, Z.F. Gu (Beijing, China), L.M. Zhou, P.H. Li (Xian, China) and G.L. Cai (Beijing, China) ..... 2213
Full-scale measurements of wind actions on Chiba Port Tower
K. Ohtake, Y. Mataki (Tokyo, Japan), T. Ohkuma (Yokohama, Japan), J. Kanda and H. Kitamura (Tokyo, Japan) ..... 2225
Dynamic gust response factors for guyed towers
A.G. Davenport (London, Ont., Canada) and B.F. Sparling (Saskatoon, Sask., Canada) ..... 2237
Discussion of Towers and Chimneys-3
G. Augusti and S. Sanada (chairmen) ..... 2249

**Pedestrian Level Winds**
Pedestrian level wind studies at the Wright Brothers Facility
F.H. Durgin (Massachusetts, USA) ..... 2253
Enhanced scour tests to evaluate pedestrian level winds
F. Livesey, D. Morrish, M. Mikitiuk and N. Isyumov (London, Ont., Canada) ..... 2265
Building wake effects in complex situations
J.A. Leene (Apeldoorn, The Netherlands) ..... 2277
Effects of the corner shape of high-rise buildings on the pedestrian-level wind environment with consideration for mean and fluctuating wind speeds
Y. Uematsu, M. Yamada, H. Higashiyama (Sendai, Japan) and T. Orimo (Tokyo, Japan) ..... 2289
The effect of architectural detailing on pedestrian level wind speeds
N.J. Jamieson, P. Carpenter and P.D. Cenek (Lower Hutt, New Zealand) ..... 2301
Wind environment around the base of a tall building with a permeable intermediate floor
K.M. Lam (Hong Kong) ..... 2313

Discussion of Pedestrian Level Winds-1
C.D. Williams and K.C.S. Kwok (chairmen) ..... 2315

A topographical study to investigate wind nuisance
A.M. Goliger, J.L. Waldeck and R.V. Milford (Pretoria, South Africa) ..... 2319
Full scale measurement of wind speeds in an inner city
C.W. Letchford (Townsville, Qld, Australia) and L.T. Isaacs (Brisbane, Australia) ..... 2331
Wind comfort and pollutant transport in a satellite city
H.J. Gerhardt and C. Kramer (Aachen, Germany) ..... 2343
Analysis and wind-tunnel simulation of pedestrian-level winds in San Francisco
B.R. White (Davis, CA, USA) ..... 2353
Towards forecasting of wind comfort
M. Bottema (Eindhoven, The Netherlands), J.A. Leene (Apeldoorn, The Netherlands) and J.A. Wisse (Eindhoven, The Netherlands) ..... 2365
Wind environment around buildings: A knowledge-based approach
T. Stathopoulos, H. Wu and C. Bédard (Montreal, Que., Canada) ..... 2377
A discussion of the components for a comprehensive pedestrian level comfort criterion
C.J. Williams, M.J. Soligo and J. Côté (Guelph, Ont., Canada) ..... 2389
Discussion of Pedestrian Level Winds-2
F.H. Durgin and Y. Uematsu (chairmen) ..... 2391

**Glass and Cladding**
Solar shades for the Ameritech Center, Hoffman Estates, Illinois
A.G. Salzman (Chicago, IL, USA) and V. Ferraro (Guelpgh, Ont., Canada) ..... 2399
Wind induced external pressures on a tall building with various corner configurations
N.J. Jamieson, P. Carpenter and P.D. Cenek (Lower Hutt, New Zealand) ..... 2401
A reliability study of wind tunnel results for cladding pressures
A.W. Rofail and K.C.S. Kwok (Sydney, NSW, Australia) ..... 2413
Post-breakage behavior of architectural glazing in windstorms
C.P. Pantelides (Rolla, MO, USA), A.D. Horst (Springfield, MO, USA) and J.E. Minor (Rolla, MO, USA) ..... 2425
Nonlinear dynamic response of window glass plates subjected to fluctuating wind pressures
Y.C. Das (Lake Charles, LA, USA), C.V.G. Vallabhan and Y. Zhang (Lubbock, TX, USA) ..... 2437
Prediction of net pressure on pressure equalized cavities
J. Xie, G.D. Schuyler (Guelph, Ont., Canada) and H.R. Resar (Winnipeg, Man., Canada) ..... 2449
Discussion of Glass and Cladding
J. Minor and W.A. Dalgliesh (chairmen) ..... 2461

**Wind and Waves**
Offshore wind structure measurements at the West Sole gas platform
J.A.B. Wills (Teddington, UK) ..... 2465
Modeling the response of TLP structures to environmental loading
N. Haritos (Parkville, Vic., Australia) ..... 2475

Wind driven seas: Optimal parameter choice for the wind input term
J. Monbaliu (Heverlee, Belgium) ..... 2499
Aerodynamic aspects of offshore structures
E. Willemsen (Amsterdam, The Netherlands) ..... 2511
On a risk analysis of storm surges
M. Makino (Fukuoka, Japan) ..... 2523
Discussion of Wind and Waves
A. Kareem and P.J. Vickery (chairmen) ..... 2535

**Ventilation**

The effects of external wind pressure distributions on wind-induced air motion inside buildings
D.R. Ernest, F.S. Bauman and E.A. Arens (Berkeley, CA, USA) ..... 2539
Considerations for airflow in buildings with cool pools
R. Aynsley (Auckland, New Zealand) ..... 2551
Full-scale measurements and wind tunnel tests on cross-ventilation
T. Katayama, J. Tsutsumi and A. Ishii (Fukuoka, Japan) ..... 2553
Prediction of wind-induced ventilation for livestock housing
Y. Choinière (Alfred, Ont., Canada), H. Tanaka, J.A. Munroe (Ottawa, Ont., Canada) and A. Suchorski-Tremblay (Alfred, Ont., Canada) ..... 2563
Velocity-pressure field of cross ventilation with open windows analyzed by wind tunnel and numerical simulation
S. Kato, S. Murakami, A. Mochida (Tokyo, Japan), S. Akabayashi (Niigata, Japan) and Y. Tominaga (Tokyo, Japan) ..... 2575
The effects of wind protective urban arrangements on the ventilation energy consumption
G.Th. Visser (Apeldoorn, The Netherlands) and T.M. de Jong (Delft, The Netherlands) ..... 2587
Full scale and model investigation of natural ventilation and thermal comfort in a building
A.J. Dutt, R.J. de Dear and P. Krishnan (Kent Ridge, Singapore) ..... 2599
Discussion of Ventilation
J. Gandemer and S. Murakami (chairmen) ..... 2611

**Shelter and Other**

Wind resistance categorization of buildings for insurance
K.C. Mehta (Lubbock, TX, USA), R.H. Cheshire (Richardson, TX, USA) and J.R. McDonald (Lubbock, TX, USA) ..... 2617
Effects of wind flow on freshly poured concrete
A.J. Dutt, S.K. Roy and M.Y.L. Chew (Kent Ridge, Singapore) ..... 2629
Wind tunnel tests to optimize barrier spacing and porosity to reduce wind damage in horticultural shelter systems
A.J.G. Papesch (Canterbury, New Zealand) ..... 2631
The influence of a plant canopy on shelter effect
R.M. Argent (Parkville, Australia) ..... 2643
The aerodynamics of urban trees
C.J. Baker and H.J. Bell (Nottingham, UK) ..... 2655
Discussion of Shelter and Other
R. Aynsley and B. Zhang (chairmen) ..... 2667

**Transportation**

Forces on vehicles in cross winds from moving model tests
N.D. Humphreys and C.J. Baker (Nottingham, UK) ..... 2673
The reduction of accident risk for high sided road vehicles in cross winds
S.A. Coleman (Middlesex, UK) and C.J. Baker (Nottingham, UK) ..... 2685
Wind flow over an elevated roadway
D.J. Bergstrom, K.M. Boucher and D. Derksen (Saskatoon, Sask., Canada) ..... 2697
A reseach on wind erosion simulation test on railway embankment in surface layer
B. Zhang, Z. Niu, Q. Zhu and H. Wang (Beijing, China) ..... 2699
A study of application of circulation control wing on sail assisted ship
W. Pan and X. Wang (Wuhan, China) ..... 2701
Flow simulation for wind-tunnel studies of sail aerodynamics
R.G.J. Flay and P.S. Jackson (Auckland, New Zealand) ..... 2703
Discussion of Transportation Related
K.R. Cooper and C.J. Baker (chairmen) ..... 2715

**Atmosperic Dispersion**

Dispersion of gases released near the ground in built up areas: Experimental results compared to simple numerical modelling
W. Baechlin, W. Theurer and E.J. Plate (Karlsruhe, Germany) ..... 2721
Analysis of dispersion process from elevated sources into internal boundary layer
M. Ohkura and A. Nishi (Miyazaki, Japan) ..... 2733
Fluctuations of line integrated concentrations across a CO2 plume
M. Poreh (Haifa, Israel) and J.E. Cermak (Fort Collins, CO, USA) ..... 2745
Discussion of Atmospheric Dispersion
R.G.J. Flay and S. Ramsay (chairmen) ..... 2757

**Atmospheric Dispersion and Particle Drifting**

Studies on measurement techniques of video images for gaseous diffusion around a building
M. Ohba (Kanagawa, Japan) ..... 2761
Conception et performances d'une sonde rapide de mesure des concentrations gazeuses: Application en soufflerie à couche limite turbulente
C. Solliec, G. Barnaud and R. Vilagines (Nantes, France) ..... 2773
Wake structure and dispersion
W.G. Hoydysh (Long Island City, NY, USA) and W.F. Dabberdt (Boulder, CO, USA) ..... 2785
Snowdrift around buildings for antarctic environment
K.C.S. Kwok, D.H. Kim, D.J. Smedley and H.F. Rohde (Sydney, NSW, Australia) ..... 2797
A two-layer model of sand bed instability in aeolian flow
S. Hibberd, C.J. Baker and S.J. Wakes (Nottingham, UK) ..... 2809
Discussion of Atmospheric Dispersion and Particle Drifting
R.N. Meroney and M. Poreh (chairmen) ..... 2811

**Computational Fluid Dynamics**

Numerical simulation of thunderstorm downdrafts
R.P. Selvam (Fayetteville, AR, USA) and J.D. Holmes (Highett, Vic., Australia) ..... 2817

Numerical simulation of boundary layer wind tunnel
T. Maruyama (Kyoto, Japan) ..... 2827
Computational predictions of flow over a 2-D building
A. Qasim, T.T. Maxwell and S. Parameswaran (Lubbock, TX, USA) ..... 2839
Numerical study on velocity-pressure field and wind forces for bluff bodies by $k$-$\epsilon$, ASM and LES
S. Murakami, A. Mochida, Y. Hayashi (Tokyo, Japan) and S. Sakamoto (Yokohama, Japan) ..... 2841
A computational study of coherent wake structures behind 2-D bluff bodies
J.A. Pearce (Ohio, USA), A. Qasim, T.T. Maxwell and S. Paramesawaran (Lubbock, TX, USA) ..... 2853
Progress in the prediction of turbulent wind loading on buildings
B. Basara and B.A. Younis (London, UK) ..... 2863
Discussion of Computational Fluid Dynamics
T. Stathopoulos, and R.J. Kind (chairmen) ..... 2875

**Codes**

Tropical windstorms on the Texas coast: Modification of building requirements for non-engineered structures based on survival rates
F.B. Wiley and J.C. Flanagan (Corpus Christi, TX, USA) ..... 2883
A commentary on future codes of practice
A.P. Jeary (Hong Kong) ..... 2895
A test to determine the accuracy of the wind loading code
E.J. Smit (Zoetermeer, The Netherlands) and H. van Koten (Delft, The Netherlands) ..... 2907
ANSI wind load standard—Internal pressure: Problems and solutions
A.S. Koenig (San Antonio, TX, USA) ..... 2919
The 1991 uniform building code wind load provisions
J.W. Sheffield (Austin, TX, USA) and J.J. Barbera (Bellevue, WA, USA) ..... 2921
Discussion of Codes
R. Bergmann and N. Isyumov (chairmen) ..... 2933

**Appendix**

Minutes of the steering group of IAWE ..... A3
Group photograph ..... A17
Key to the Conference photograph ..... A19
Author Index Volumes 41-44 (1992) ..... A25
